EXHIBITOR TESTIMONIAL

I'm happy with GIFA-METEC because it's a collaborative event, and it's really big. I think we will join again next year because the number of visitors is so high

PT Makmur Meta Graha Dinamika

I'm really happy that a platform like this exists. For foreign companies, penetrating a new market like Indonesia is not that easy. So, I think these event platforms are incredibly valuable. One word about this event: successful.

Magma Engineering Asia Pacific Pte, Ltd

This event is a fantastic opportunity to explore a previously uncharted market, especially Indonesia. You can see that all the industries are moving forward. I think it's very valuable.

Mohammad Hadi Al-Rasheed & Partners Co.

The future of construction will be more challenging due to new challenges and fierce global competition. As government stakeholders, we respond to improve the quality of infrastructure services. I hope that everyone can make good use of this exhibition to foster collaboration and gain knowledge about the latest innovations in the construction sector.

Dr. Dadang Rukmana, S.H, CES, DEA
Economic and Investment Advisor to the Ministry of Public Works and Housing

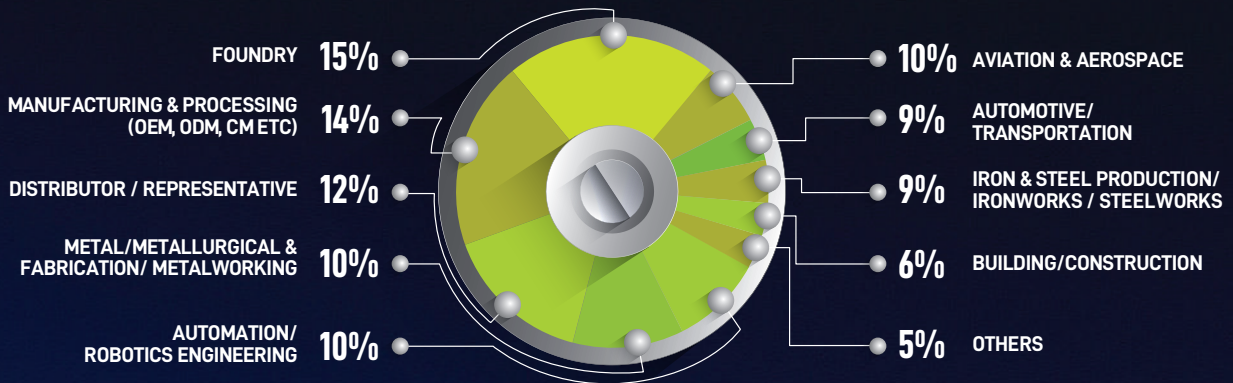

The government strongly supports the overarching theme of sustainability and competitiveness, which is essential to benefit Indonesia. We all hope with this events, the energy sector in Indonesia can achieve self-sufficiency and provide optimal results for people's welfare.

Prof. Dr. Ahmad Syahroza, Ph.D.
Economic Advisor to the Ministry of Energy and Mineral Resources

PRE-EVENT WEBINAR

TECHNOLOGY TALK | 13 JULY 2023 SUSTAINABILITY IN MINING & MINERAL PROCESSING THROUGH TECHNOLOGY

In 2022, Indonesia witnessed remarkable economic expansion, notably through a more than 100% surge in mining exports, contributing significantly about 12.22% to the country's overall economy as reported by the Central Statistics Agency of Indonesia. Consequently, to sustain and build on this growth, a collaborative effort between the financial sector, government, and the mining industry is underway. They're exploring various sectors, such as embracing a circular economy model, advancing operational efficiency via digitalisation, adopting green energy practices, and integrating eco-friendly materials and equipment. In Technology Talk, around 150 participants joined the discussions

revolve around emerging sustainable mining technology trends, the obstacles hampering innovation, and the pivotal role of government policies in driving advancements in sustainable technology within the mining industry.

SEMINAR HIGHLIGHTS

Thursday, 14 September 2023

GIFA Indonesia Technical Conference

GIFA Indonesia Technical Conference is an event where experts, professionals, researchers, and enthusiasts in foundry and metallurgy scientific field come to share, and learn about "Future Investment for Indonesia Smelting Industry".

Friday, 15 September 2023

GIFA METEC Metallurgy Talk - Future Investment for Indonesia Smelting & Metal Processing Industry

Smelting and processing industry in Indonesia presents an attractive investment opportunity for the future. Abundant mineral resources, progressive government policies, and commitment to sustainable practices combine to create a favorable ecosystem for investors. With the increasing global demand for metals, Indonesia is poised to leverage its potential and emerge as a leading player in the global landscape of metal smelting and processing.
